

# Creamy Cold Brew Ice Cubes

If you like your cold coffee drinks rich and creamy, try ditching regular ice cubes and using this recipe. These cold brew ice cubes not only help keep your coffee from getting watered down — they also add more creamer as they melt, so you can enjoy the taste you want from the first sip to the last.

Prep Time	Cook Time	Serves	Difficulty
5 mins	N/A	4	Easy

## Ingredients

- 1/2 cup Dunkin’ Cold Brew Concentrate
- 1/2 cup water
- 1/2 cup coffee creamer of choice (sweetened or unsweetened, flavored or unflavored)
- Ice cube tray

## Directions

**Step 1: Mix cold brew concentrate and water together.**

MIX the cold brew concentrate and water together in a pitcher, cup or glass.

**Step 2: Pour cold brew into ice tray until ¾ full.**

POUR the cold brew into an ice cube tray until full 3/4 of the way to the top.

**Step 3: Top each ice cube with coffee creamer.**

POUR a splash of coffee creamer on top of each cube.

**Step 4: Freeze, then enjoy as a beverage base.**

FREEZE. Use the ice cubes as the base for iced coffee, slushies or your favorite beverage.
